Historic Nuclear Agreement Deal or No Deal?

By: Syed Jawad Naqvi

Everyone's minds are occupied these days along with media on the so called historic nuclear agreement that was done between Iran and P5+1 satanic powers which has primarily created confusion and also concerns specifically amongst those who are revolutionaries.

War against Islamic System

First of all we should be attentive towards this fact that this nuclear agreement is not an absolute issue which can be considered as an isolated atomic issue with no relation to any other issues. It is not that Iran wants to become an atomic power and they do not want Iran to become an atomic power. The way the Supreme Leader has said that the actual battle is not an atomic war instead it is an ideological war; a battle between revolution and the enemies of Islamic revolution. The actual war is between arrogant, imperialistic powers and the Islamic system of Imamate and Ummat, which is Wilayat-e-Faqeh.

It is an historic fact that America gave this suggestion and started this act of turning Iran into an atomic power at the time of Shah Regime. The first power plant was given by a German company to Iran on the instructions of America which is now being constructed by a Russian company in Bushehr and some part of it has already become active. It was America's planning to turn Iran into a nuclear power thus this is not the actual issue; the issue is with the Islamic governance system in Iran

which is confronting with the system of these *Taghoots* (deviant devilish powers). The system of Imamate or Wilayat does not compromise with *Taghoots* and this was the reason that immediately after the Islamic revolution America winded up the socialistic systems and closed that front because they realized that socialism is not their actual enemy. They realized that their actual enemy is not socialism instead the power which can destroy their arrogant, tyrannical regimes is the Ideology of divine Quranic Islamic system whose leadership is with the Shiite. They witnessed this and after closing all other fronts they turned towards Middle East and specifically towards the Islamic system.

They aroused Saddam and Saddam started the war with the same justification for which the negotiations have been done today. After this eight year war with Saddam they did not stop and turned towards creating several seditions (*Fitnah*) inside the Islamic republic. In 2009 a very severe crisis was created against the Islamic system in which government elements were involved and there were three persons who were openly declared in Iran as Chiefs of this *Fitnah* and there was a fourth person also who was referred to as the supporter for these three. Who are these four persons? Two of them are under house arrest now; one is Mahdi Karroubi who had been the head of parliament for five years became a chieftain of this *Fitnah*. Mir Hossein Mousavi who was the prime minister for eight years was another chief of this *Fitnah*. Mohammad Khatami who was the president of the country for eight years and around sixteen years he was the minister also; all these were the chieftains of the *Fitnah* in 2009. The fourth person who is considered as the supporter of this *Fitnah*; Hashmi Rafsanjani was the guardian for these three. This

devastating sedition was like an earthquake against the system of Wilayat in 2009 and shook the pillars from inside. The war of Saddam was nothing as compared to this Sedition but the way Allah protected this revolution from the war and many other threats; Allah protected this system also from this devastating sedition. The means which were used by Allah to protect the revolution from this *Fitnah* was

the deep insight (*Baseerat*) of the Supreme Leader (Ayatullah Syed Ali Khamenei) which protected the system, revolution and everything of this nation.

I am mentioning all this is to express the fact that there is a continuous encounter with the Islamic System. In this *Fitnah* Saudi Arabia played a very important role. There was a book which we published by the name "Defeated Velvet Revolution in Iran" in which complete details about this *Fitnah* was discussed and this book was distributed across the globe.

This atomic diplomacy battle is the continuation of the same *Fitnah*. They made an excuse that Iran has turned into an atomic power and creating nuclear bomb which is a threat to Israel. This is a fact also that a nation which explicitly says in their strategy that Israel should be eradicated then definitely Israel has a threat from Iran. If such a nation becomes an atomic power then all their efforts get wasted. Obama has also said this clearly that we will do everything possible to protect Israel from any threats and we will not refrain from destroying an Islamic nation if it becomes a threat to Israel; at any cost we are committed to the protection and existence of Israel. They have made this nuclear an issue to once again give a blow to the Islamic system and by this issue they want to disturb the internal situations in Iran.

Economic Sanctions – Most effective weapon

The most effective weapon till date which the enemies of revolution have adopted is the weapon of economic sanctions. This has given a big damage to the national economy in Iran; currency fell down significantly, inflation went up and it disturbed the lives of people significantly inside Iran. From the time the sanctions started around twelve years before restrictions kept on increasing and despite of being under these tight sanctions the Islamic system ran the nation, continued with the progress and development of the country. You can visit every year to Iran and see every year how much development is happening in a country which is exposed to continuous severe sanctions.

At the same time they continued with negotiations also and the current President Agha Hasan Rouhani was the chief diplomat of the Atomic file at that time during the Presidency of Khatami. Rouhani was the chief of National Security Council and he was visiting Geneva, Vienna and other places as senior diplomat for negotiations and dialogues. Rouhani supervised these negotiations for eight years and without the instructions for USA or UN they voluntarily suspended their nuclear project. In order to express their good will on the instructions of Khatami and diplomacy of Rouhani they suspended the nuclear projects. They locked all their nuclear plants and even applied restrictions in universities for imparting nuclear education in order to gain confidence of America. The one sided suspension continued for eight years under the presidency of Khatami but no sanctions were eased out instead more restrictions were imposed despite of this voluntary step taken by Khatami.

Then the new president Ahmadinejad came in and decided that despite of suspending the nuclear activities still you are imposing strict sanctions on us then why should not we continue with our nuclear development. He reinstated the nuclear project, accelerated it and took the development to an astonishing level. He got success in many segments which the enemies could not believe it. The machinery which is required for Uranium enrichment were very basic ones present with Iran which were then indigenously enhanced and they produced thousands of advanced machinery. The enemies now realized that Iran has got the nuclear technology and Iran spread the nuclear development project across the country in many secure places.

The USA kept on tightening the sanctions and literally disconnected Iran from the entire world. One of the effects that came on Pakistan was the Iran Gas pipeline which Iran developed and brought it to the

border of Pakistan but Pakistan is not taking it because of sanctions on Iran. These sanctions bring pressure on people and there are internal elements who harmonize with the enemies. The internal elements give signals to the external entities to increase restrictions and at the same time they arouse the people internally that these restrictions are due to our atomic project enhancements. They try to present to people that we do not have bread, our kitchen are getting closed and nation is going after nuclear enrichment. As a result of this the effects of sanctions started to manifest itself. The internal hypocrites and external enemies joined hands to aggravate the effects of sanctions thereby creating a crisis inside the country; besieging Wilayat whose effects are clearly visible.

Negotiations – A diplomatic warfare

These sanctions and this crisis is breaking the back of the nation. It is the obligatory duty of the leadership to get the people out of this crisis, protect the nation and thus once again the Supreme Leader presented a plan which was termed as “*Narmish-e- Ghahrmanane*” (Heroic flexibility). This is the terminology used by the Leader which actually comes out from the translation of a book which the leader did at the time of revolution. This book was from Syed Razi on the subject of Peace treaty of Imam Hassan (a.s). The content of the book which the leader presented was that Imam Hassan (a.s) demonstrated a heroic flexibility with the peace treaty he did with Muwaiya. I have already explained this before as to why Imam Hassan (a.s) did this because He (a.s) himself says that my enemies and my companions together have made several dangerous plans and in order to counter those I have adopted this strategy of heroic flexibility (refer to strategy chart at the end of the article)

When the new government of Rouhani came into power and they again aggressively started the negotiations; the Leader used this terminology of Heroic flexibility indicated that we want to get the nation out of this crisis. He gave the opportunity to the government to negotiate and this was a diplomatic battle which was being fought on the table. This battle is tougher than the war of weapons because this battle needs intelligence, wisdom, cleverness, awareness, courage, perseverance and stamina is required and this battle went on for twelve years.

It is clear that on one side enemy has dangerous conspiracy and internally there are elements who are supporting the enemy together both of them aiming to destroy the system of Wilayat. They were building pressure on the system of Wilayat through the people. The plots of both internal and external enemies were defeated by these negotiations which were done under dosed monitoring by the Leader who drew certain red lines which could not be crossed at all. These negotiations are an example for the entire world and specifically for Pakistan. The battles which were fought in the world eventually become the syllabus of courses and are taught in military schools; like the Iran Iraq war is being taught to all armies of the world. They teach them about the techniques used in these wars and they become part of the Military academy curriculum. Similarly these negotiations should also become part of the curriculum and Pakistani ministers should study on how diplomatic warfare is done. I have said this earlier also that two phone calls have become historic in Pakistan; one call was a three minutes call from the foreign minister of USA to General Parvez Musharraf at the time of Afghanistan attack by USA, whereby he was told to either join them or be ready for destruction and this General immediately submitted. The USA foreign minister later wrote in his book that the president of Pakistan did not even asked time from me; he immediately submitted to our demand. The second call which came few days back after the Pakistan security agencies caught an NGO by the name “Save the Children” which was involved in anti-national activities. The Interior minister dedared that certain nations outside including America and Israel are supporting this NGO and this NGO was sealed. On next day call came from USA to the Prime Minister to again restart the NGO and they did it.

Here you can see that they submit on one phone call whereas this nation of Iran has been negotiating since twelve years that too against six top most devilish powers. The two worst devilish powers amongst these five are China and Russia who took the benefits from both sides in these negotiations. They would tell America to accept their certain demands else they will side with Iran; then they would seek demands from Iran with the threat that they will side with USA. These two countries acted as traders and not politicians in these negotiations; they earned a lot and will earn more. You should be aware that these six nations are devilish, goons, rowdies and worst nations of the world who are confronting on other side with that nation who is holding the standard of Islam in their hand.

Joint declaration – Supporters and Opponents

This is a historic point that they fought for twelve years and this battle has not yet ended. The battle is ongoing and what they have issued is a joint declaration. Now everyone is talking about this joint declaration and on both sides there are supporters as well as opponents of this declaration. In USA also there are supporters and opponents; even in the camp of Obama; Hilary Clinton who is the potential candidate for next USA presidency is

in strict opposition to this agreement. She is the successor of Obama and from her party. Then the other opposition which is the party of Bush who are in Congress and are strictly opposing this agreement because of the effectiveness of Zionism on them. Israel and Saudi Arabia are the biggest opponents of this joint declaration. In Iran also there are supporters and opponents of this declaration with both giving their own reasons.

This is ongoing and it is not that everything has ended. The statements which are issued in public are different and what is signed behind closed doors are something different. In the upcoming days Congress has to review this agreement at the same time in Iran also it has been announced that the Iranian parliament will review every point of this Joint declaration and if it is found in national interest then they will accept. It is not that whether this will happen or not happen; it will happen as well as not happen because this is part of a battle which will continue the same way as it was before.

These devilish powers will not lift the sanctions because after a long time they have got such an effective weapon in their hand. Saddam martyred three thousand youths of Iran but this did not shock Iran. The graveyards are full, several families got martyred but Iran did not feel the pressure but with these sanctions they have felt the pressure and back is breaking down; and they also realized that they need to straighten their back. The enemies realized that we tried military power, other forces but we could not break Iran but these sanctions have been effective and it is natural that they will not waste this weapon of theirs and will keep on playing with them.

Wali-e-Faqeh – The Supreme Authority

It is really a serious matter specifically for those across the world who are admirers and supporters of Islamic revolution. You should know that in Iran the Supreme Authority is the Leader (Wali-e-Faqeh) and without the permission of the Leader things cannot move in Iran. They create plans to besiege the leader and carry out these mischiefs of getting the leader in confrontation with masses but with all praise to Allah the Leader has always defeated their conspiracies. Whenever they have worked out any stratagems Allah's stratagem has always disgusted and disgraced them.

As said earlier the ex-president Mohammad Khatami has been the chieftain of these seditions and Iranian court has officially announced that publishing the

picture of Khatami anywhere is prohibited. He is a criminal who created this sedition in 2009. Thus it is possible that certain governmental elements, bureaucrats can do some mischiefs but these are not supreme authorities. Parliament, President are not supreme authorities because the system in Iran is not democracy it is the system of Wilayat. The supreme power is Wali-e-Faqeh who comprehends all the matter and will not allow their mischiefs to be successful. Hence all the well-wishers, supporters and lovers of Islamic revolution should remain relaxed that this difficulty would not come in place. It is clear that these sanctions have been very effective and they have built a lot of pressure on the people and it is the duty of the leader to bring the nation out of such crisis. One way is diplomacy which will go on and this battle, play will keep on going but they will reap other secondary benefits from this.

Benefits of Joint declaration to Obama and Rouhani

In Iran the parliament elections are about to take place in this year. At present the parliament is under the opposition majority which international media terms them as conservative traditionalist and in Iran they call them Principlists and they are not in harmony with the existing president. Mr.Rouhani wants the parliament to have his majority. Khatami, Rafsanjani wants a clean sweep in the next election thus having their own candidates in these elections. This way parliament will come under their control and then they can do whatever they want. Thus the major effect of this agreement inside Iran will be on the upcoming parliamentary elections because this government has given a lot of statements that the issue is resolved and sanctions have been removed but in reality nothing has happened. There is not even a single sanction that has been lifted. This is just an announcement and after six months it could become active that too they will say that Iran is not doing what we have asked for. They would say that we wanted to dose down so and so thing but they did not do it and again this issue will restart. Iran government will say we are doing what you are saying and P5+1 will deny with the tail not left lose and issue will drag on. The thing which will happen irrespective of sanctions being removed or not is the effect on elections which are about to take place in both USA and parliamentary elections in Iran. The Iranian side wants to make use of this for the Parliamentary election hence they are given excited statements about celebrations for this success whereas America is saying we do not trust Iranians and Supreme Leader has said we have no trust on Americans.

In such an environment it is a battle which was going on and in future also it will continue. This agreement declaration has internal benefits for both sides; whereby Obama wants to win the election for his party and he is saying also that I have protected the world with a big danger and destruction by doing this agreement with Iran. He is convincing the Americans that Iran was about to destroy the world and I have saved it whereas Mr.Rouhani is convincing his people that Iranians were about to die of starvation and I have saved them. Obama is saying I have protected the world and Mr.Rouhani says I have protected Iran so that both can win the elections. This is the reason for which they have triggered this issue and media being one sided is not presenting the facts. The columnists are writing baseless things that now "Death to America" slogans will end and both will be good friends. A youth during a recent gathering of students with the Supreme Leader in the month of Ramadhan asked the leader that if this agreement goes through will we still say "Death to America" or not? The Leader replied that the battle with arrogance, *Taghoot* and "Death to America" until Qayamat.

Effect of this declaration on Pakistan

One part of this agreement is associated with Pakistan and our ministers have started to quote that now Gas will come soon but the fact is that it will not come because first American has stopped it and now Saudi Arab will stop. First America has said that due to sanctions on Iran you cannot take this gas from Iran and now Saudi Arab will tell Pakistan that after taking so much money from us you are taking gas from Iran? Wiki Leaks has recently released a new version related to Saudi Arab secrets which are present on Internet in which there is a lot related to Pakistan because Saudi Arab has high interference in Pakistan. Saudi Arab has even gone to India to stop them from taking oil from Iran but India has said that our refinery system is designed for Iranian oil because there are various types of oil. India said that we cannot take oil from any other country since our refineries cannot support it. Saudi Arab replied that we will deploy a new refinery free for Saudi oil and you should not take oil from Iran. One more announcement which Wiki Leaks has done is about few years back one Pakistani university invited Iranian Ambassador in one of their conventions. Saudi Arab came and suspended the Vice Chancellor of the university. Saudi Arab has this much interference in Pakistan and no news are given about them in Media so how can they allow Pakistan to take gas from Iran. The slavery which Pakistan is doing with Saudi Arab is much worst then the slavery of America. This slavery of King Salman, Bedouins and these Arab terrorists has become a fortune of Pakistan and we pray to Allah to give salvation to Pakistan and everyone else from these beasts.

Translated By: Syed Arif Rizvi

Ustad Syed Jawad Naqvi, the writer of this article which is an abstract from his Eid-ul-Fitr sermon is the principal of Orwatul Wuthqa Islamic University in Lahore, Jafaria Islamic University in Gujranwala, UmmulKitaab Ladies Islamic University in Lahore, Deen-ul-Qayyim online Islamic University and Chairman of Siraat Education Schooling System. He has been a student of Islamic Seminary in Qom for nearly three decades and has been running this universities in Pakistan since last five years with more than fifteen hundred full time resident students and nearly five thousand part time students benefitting from these educational projects. With more than twenty books published in Urdu and around similar number of titles in English on various Islamic Ideological and socio-political matters Syed Jawad Naqvi has created a wave of awareness, awakening and sensual realization of facts not just in Pakistan but across the globe.

Appendix 1 – Heroic Flexibility & Leader’s Red lines

Khamenei.org is presenting an infographic illustration of Heroic Flexibility in diplomacy as well as its objectives and how it can be supported. This illustration attempts to explain and filter out the wrong interpretations. Iran's diplomats should be sharper than a sword, but softer than silk, and stronger than steel and rocks.

Goal

Advancement and realization of the Islamic Revolution and System

Dos

- Active and innovative diplomatic efforts ✓
- Maintaining a strong, protesting, and aggressive stance ✓
- Not forgetting the enemy and the combat ✓
- Identifying targets of enemy attack ✓

Backing

A strengthening of the internal structure of the regime will back the Heroic Flexibility

- There is a truth in every country and in every government, and diplomatic tools serve that truth to go forward. I mean diplomatic effort, in the absence of substance, will not have great impact... to summarize, whenever diplomatic efforts is coupled with inherent substance, it will bear results... it is with this inherent substance that diplomatic action can tear hard stones and open the way. In other words, that which causes animosity against us is the same thing that causes the progress of our diplomacy. (August 7, 1996)
- We said "the internal structure of the system" must be strengthened- we said "science" must grow, we said "domestic production" must be the basis for work, we said "an optimistic view to the country's domestic talents" must be pursued seriously; that talents must be nurtured; these are the basic foundations of the work... (September 17, 2013)

Don'ts

- Humility before the international powers, especially the United States ↓
- Abandoning amicable relationships with ambassadors and leaders of Islamic countries ↓
- Drifting away from Islamic groups ↓
- Crossing the red lines ↓
- Lack of attention to ideals ↓
- Unwarranted bellicosity ↓

Correct and logical diplomatic movements while

maintaining principles of the Revolution

Misconception

A defensive position and efforts to satisfy the Arrogant

Based on the Supreme Leader's speeches in meetings with the Revolutionary Guards commanders, 18 September 2011 and his speeches and foreign ministry efforts, 7 August 1996

RED LINES DURING THE NUCLEAR TALKS

INTERNATIONAL ATOMIC ENERGY AGENCY SHOULD ESTABLISH NORMAL AND NON-EXTRAORDINARY RELATIONS WITH IRAN.

OFFICIALS SHOULD HAVE MEETINGS AND TALKS AT THE LEVEL OF FOREIGN MINISTERS.

OUR DELEGATION SHOULD NOT ACCEPT ANY IMPOSITIONS FROM THE OTHER SIDE.

PROTECTING AN ORGANIZATION LIKE FORDOW WHICH THE ENEMY IS NOT ABLE TO DESTROY AND IS INACCESSIBLE TO THEM.

NO ONE HAS THE RIGHT TO BARGAIN OVER NUCLEAR ACHIEVEMENTS AND NO ONE WILL DO SO.

SUPPLYING THE FINAL NEED OF THE COUNTRY'S ENRICHMENT CAPACITY WHICH IS 190 THOUSAND SWUS.

IRANIAN DELEGATION SHOULD INSIST ON CONTINUING NUCLEAR RESEARCH AND DEVELOPMENT.

BASIC NEEDS OF THE COUNTRY AND SOME ISSUES LIKE THE SANCTIONS SHOULD NOT BE TIED TO THE NUCLEAR TALKS.

NUCLEAR SCIENCE MOVEMENT SHOULD NOT COME TO A HALT OR EVEN SLOW DOWN

AS LONG AS AMERICANS CONTINUE THEIR ENMITY AND THEIR HOSTILE REMARKS ABOUT IRAN, INTERACTIONS WITH THEM WILL BEARS NO PRACTICALITY.

THESE TALKS ARE ONLY CENTERED ON THE NUCLEAR ISSUE AND NOT ANYTHING ELSE.

RED LINES DURING THE NUCLEAR TALKS
